

Wicked Star was born in January 2003 during a live jam between 3 small town boys from Saint-Hyacinthe, a small French-speaking town of Quebec near Montreal; all three devoted to an unfortunately forgotten style of music: Pure and Authentic HARD ROCK. The musical fusion was instant and the band still has its original members.

The band is known for his authentic Hard Rock style and solid live jams. It's on stage where their passion and energy comes out. The crowd is always impressed by the easy-going and festive attitude of the band. Wicked Star always has a professional approach both onstage and the way they manage their career.
